Extremely Fast Oxidation removal
No grit formulation - won't scratch highly polished aluminum
Light consistency – will not cake- easy to remove
Fastest formulation on the market
Does not separate in bottle- no shaking required

Frequently Asked Questions

Windshield, Paint & Chrome Questions

How Do I Remove bugs from my windshield?

To Wash off use Formula 22 or 2
To remove without water use Formula 33

How Do I repair a cloudy windshield?

Clean windshield first and apply Formula 3 to front and back of windshield, let dry, and wipe off

How Do I remove flash rust, burned on boot marks, and rain suites from chrome?

Apply Formula 33, 3, or W to .0000 steel wool for safe – no scratch removal.
All three products will work in this application. Our detailers prefer to use Formula 3

How Do I clean white calcium spots from chrome?

Same as above

How do you remove blueing and golding from exhaust pipes?

Use Cycle Care Formula M with a 3-M pad called a "dootlebug".
The discoloration will remove easily.
